

Tona González **Fullstack JavaScript Developer**

You can call me Tona, I love to build stuff that works and provides value to people, I like to think about myself as a creative and I enjoy simplifying things or at least to try to.

Stack

Frontend: React, Next.js, Gatsby, Redux, Rxjs, Redux-Sagas, Webpack, Chakra-UI, Material-UI, ant-design, postcss, sass, less, tailwindcss, pug, eps.

Backend: Express.js, Loopback.js, Nest.js, postgres, mysql, typeorm, sequelize, Payload.js.

Testing: Jest, React Testing Library, Supertest, Cypress.js

Job Experience

Frontend Developer @ Loadsmart (October 2021 - January 2023)

tasks: Develop and maintain internal usage app, client facing web app, design system library.

Software Engineer @ Encora (February 2020 - October 2021)

client: The Bouqs (August 2020 - October 2021)

role: Fullstack Developer

tasks: Develop and maintain legacy Node.js app and CRON job, Subscriptions Application, create a new repository to our Design System, collaborate with the new Storefront migration from RoR to Next.js

project: Talent Platform (April 2020, August 2020)

role: Lead Backend Developer

tasks: Build from scratch the BE using Nest.js and using TDD. Deliver tasks to developers and review code.

Frontend Developer @ Ksquare (July 2019 - February 2020)

client: Scouts of America (August 2019 - February 2020)

role: Frontend Developer

tasks: Develop and maintain web app for Scout Leaders, using things like RxJS

project: Conference App (July 2019 - August 2019)

role: Fullstack Developer

tasks: Develop and maintain internal usage web app to schedule conference rooms, I worked on both backend and frontend. I managed to use TDD on the backend but not in the frontend since I didn't have the experience.
